Environmentally Friendly

CertainTeed WeatherBoards are manufactured using 30% post-industrial recycled fly ash, resulting in the diversion of more than 50,000 tons of fly ash from landfills each year. The water used in the CertainTeed manufacturing plant is recycled, saving 1.5 billion gallons of water per year.

Durable

- CertainTeed's higher interlaminar bond strength results in superior freeze/thaw protection.
- FiberTect® Sealant/Primer protects against moisture.
- Impervious to wood-boring insects
- Resists damaging effects of salt spray and UV rays
- Will not rot
- Class A Fire Rating

WeatherBoards Vertical Siding is available in a wide range of sizes for design flexibility. Whether you choose stucco, cedar or smooth, CertainTeed's realistic grains and textures are convincing.

WeatherBoards Lap Siding is available in a range of panels with realistic grains and texture and a generous selection of exposures.

Unicrete's Finishes

We can provide our customers with a full range of custom colours. Our factory applied finishes are superior to any manual application and the controlled conditions during both application and curing maximize adherence and even finish.
